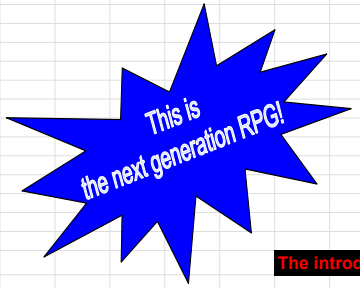
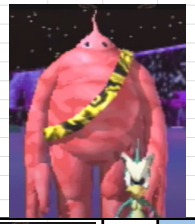
ENEMY EXPLANATION

●INTRODUCTION

The content of this introduction is based on what written on the plastic sheet (Not for sale merchandise).
*You can see the sheet image with switching to "Plastic sheet" tab.
However, **we can see lots of contradictions, wrongs, and strange parts in the sheet.**
Perhaps, the person written that would be not a development member.
There are some parts I translated as is, some parts I paraphrased.
In addtion, I added my pointings out or supplements as comments.
I love this game including such weird parts, and I think that is one of attractive.



The introduction of main characters that give coloring to "DRAGON TYCOON EDGE".

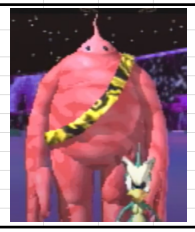


1 White Lizzard Island

Alegius

He is a great priest who requested to summon "Alm" to the Goddess for saving the world.
But he passed away after he gave it his all energy soon.

He passed away but sometimes he appears as a ghost or advises as a existence of only voice.

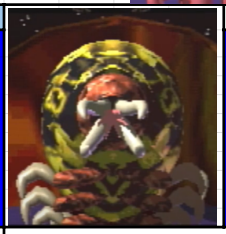


2 White Lizzard Island

Dada & Lulu

They are a pair that collect and go around for treasures even the collapse of EDGE is coming up soon.
You will often encounter with them, so they might be to give you valuable infomations.

It is written "give you", but if anything Dada often leaks valuable information.
It is a big trouble for them, the collectors that player gets valuable items earlier than them.



3 White Lizzard Island

Bosscuume

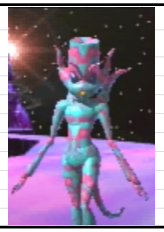
It is a giant scary leech absorbs player's HP steadily in White Lizzard Island.
Be careful because it is quite formidable.

4 White Lizzard Island

Mother Centibeta

It is a giant terrible centipede.
If you defeat it and get a magic power, you might be to proceed easily after that.

Actually, getting from it is a "magic" rather than "magic power".

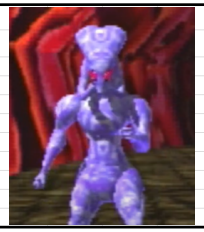


5 White Lizzard Island

Faliena

She is a pretty and strong lady, and she whisper "Hang in there." with a cute voice.
Want to meet!

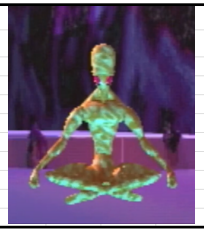
She never says that in actual.(But she says "Be careful")
In most case, she gives advice about walkthrough.
Also, it is written "strong lady" but there is **not any her battle description** in game.



6 White Lizzard Island

Gamelm

He is a boss of the temple where is one of 2 main locations in White Lizzard Island.
He raids by a electromagnetic wave spell named "Tri-energy".

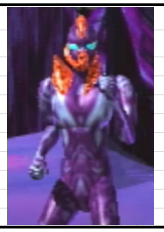


7 White Lizzard Island

Shenbaba

He is a training monk who block a way to "Shining Tower" the most difficult in White Lizzard Island.
He says "If you are a monk, I'll allow you to go through". He seems that he is friendly for colleagues.

He never says that in actual.
But it is truth that he is friendly for colleagues, if player has the appearance of a monk, he allows.
Also, we can get a glimpse that he is great inspite of a training monk from the other's lines.
The monks is planning to separate the White Lizzard Island from the continent, and it seems that he leads them.



8 White Lizzard Island

Gardian of Tower(Bolbs)

Not only Shenbaba, but also Bolcos is blocking the way to the Shining Tower.
His electromagnetic wave spell and kick has tremendous power.

His name is "Bol**cos**" in the explanation box, but "Bol**b**s" in game.
He gives his name when player encounter him, but the giving part of speaking is not cleary, so it can be heard both "Bolbs" and "Bolcos".

9	White Lizzard Island	10	Cosvil	11	Moreal	12	Badoll
	The Keeper of brigde(Norm) When you will escape to the North Continent after clearing the Shining Tower, you will encounter this scary keeper on the bridge to the continent.		**Mizet** He is in the Cosvil town on the continent. You need to give bread crumbs for him to solve a seesaw mystery in town central.		**Swasthica** You will encounter him at "Moreal" the cave of art where you will arrive by trolley. He is Swasthica the magician. You need to suck up to him to get "Warp Picture" from him.		**Yorsan** He is a servant of Lilic the prince in the Forest Kingdom, and he is waiting for the prince for a long while. I hope that he can see the prince soon, but where is the prince...?
	This explanation is the worst. First, **he doesn't want bread crumbs**. A certain enemy's memory says "It would be good to give bread crumbs for Mizet.", but he says "I don't need bread crumbs anymore.". Although player can get bread crumbs as a item, **it is useless**. And, it is written "seesaw mystery" and he is sitting on the seesaw in actual, **but the seesaw is not related at all**. If you give him a perfume, he opens the gate near the place he is.		**Player doesn't need to suck up to him in actual.** Player has to exchange a magic to the "Warp Picture".				It seems that he is waiting the prince, but when player shows the "Royal Emblem" to him, he mistakes player for the prince, and allows passing the way to the fountain and the altar. Doesn't he know the prince appearance?
13	Badoll	14	Badoll	15	Banvil	16	Ferigoz Ferifaz
	LiLics He has "Soul of Wind" one of "Five Souls" you need to collect in EDGE.		**Meduda** When you arrive the alter at deep side of Badoll, she will appear from behind the pillar. She spells the magic named "Gorgon eye" to change a opponent to stone.		**The time fiend(Crocker)** The fiend manipulating time is at the deep place in Banvil the Mirage Valley. It is said that there is a important soul at there also. You must check!		**Tooan** You will encounter a wandering knight on the way to the Fog empire. His name is "Tooan". He says "You are not good enough." and leave.
This explanation is strange too. **Also, his move in game is so weird.** First, he is being trapped underwater and asking to help. It needs the "King's Mask" to help him, but it is too strange why it is the Mask. Also, the past prince (his memory?) appears at the altar and it says "I'm in training underwater for improve the country.", but it turned out to be a stupid move as a result. In addition, when he is released he passes away soon with saying "My body is over because of the water.", at that time he realizes that he will changes to the "Soul of Wind" and be a part of player's body. **Namely, it's not that he has the "Soul of Wind".**		Certainly "Gorgon eye" change a opponent to stone and skip the opponent's turn, **but it is only 1 turn so meaningless**.		"a important soul" is "Soul of Time". He asks "Do you want my soul?", it is unknown that "my soul" means "a soul he has" or "his life". If player defeats and gets his body, got the "Soul of Time" before you know it.		**He never says that.** **Rather on the contrary, he praises player with saying "That's the way to go." or "You have a great sword.".** Also, a sword exist in game but player can't equip.
17	Blazing Cave	18	Blazing Cave	19	Amadom	20	Amadom
	Zaichef He is a boss subduing flame monsters at Blazing Cave beyond Ferifaz. Also, He has "Soul of Flame" and is capturing Sigel. Fight!		**Sigel** If you defeat flame monsters and Zaichef, you wii be able to get "Soul of Flame" from Sigel.		**Selena Balbal** She is a quite beautiful female pirate. If you can't defeat the other sexy female pirates, you can't meet her. Teeheehee.		**Bromandel** There are the group of prisoners in undergaround empire and are lot of characters on the ground. You need to have "Death Battle" with millionaire him for his fun.
To be exact , he doesn't have the "Soul of Flame", he is capturing Sigel having the soul.		I don't know the reason, there is no information about him. This explanation is just game flow. To supplement about him, his life is disappearing as well as Lilics and he says "Please use my body".		**This explanation is also terrible.** First, when player meets her, she says "I'm **a female master of Madam's room**" instead of a female pirate. (* It seems that "Madam" is a generic term for female of authorities in		The first half of this explanation is about the place and its characteristics, not about him. Also, it is witten "Death Battle" **but there is not a unique battle there.** (But, he says "Please play Death Battle with me".)	

	Considering from his lines, it seems that's not he has the "Soul of Flame" as a item and the soul is his life.	Amadom.) However, when player defeats her and gets her body, her soul says "**I'm a descendant of Water Species** be disappeared by the oracle of the Outnion." and player got the "Soul of Water".	You just battle as usual.
21 Amadom **Givolgar** He is a mad scientist and has a passport to the Fog Empire. You would be good to give him the royal family saber.	22 The Fog Empire **Empire Soldier(Morvid)** Althogh they are the most scary in the empire, are very strong soldiers. The detail of them is secret. To clarify it!	23 The Fog Empire **Eram** He is about to make a last oracle at the Fog Empire. You would not be able to stop the runaway of Outnion without his force.	24 The Fog Empire **Hector** He is one of 3 executives in the Fog Empire. He spells a dreadful magic called "Dark Abyss". Can you get to there and challenge him?
"Passport" means the "Matter transfer Device". He knows dangerous of the Outnion and requests player to destroy the Outnion.	I don't know the reason why the explanation of this monster is very weird and neglectful. **The Japanese sentence is weird even from first one,** but I translated it as is. To supplement about this monster, they exist a lot and spells an electric magic.	The entity about to make a last oracle should be Outnion, not Eram. Or is it meaning that Outnion manipulates Eram to make an oracle indirectly? Even that seems very important part but that is fuzzy. According to Hector, he was a leader of rebelion but became the murder weapon by brainwashing from the Outnion's oracle.	**He is not the last boss.** The last boss is the 3rd executive person.
